

Project Demo Planning

Date	28 September 2026
Team ID	SWTID-2026-4103
Project Name	API FAQ Assessment
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project and explain the problems faced in managing FAQs and customer support queries.	2	Member 1
2	Solution Overview	Explain the proposed AnswerBot solution, system architecture, technologies, and overall workflow.	3	Member 1
3	User Authentication	Demonstrate user registration, login, JWT authentication, and secure access to protected APIs.	3	Member 2
4	FAQ & Database Management	Demonstrate FAQ creation, viewing, updating, deletion, categories, and MongoDB database integration.	4	Member 3
5	AI & Search Features	Demonstrate Google Gemini AI FAQ generation and keyword-based FAQ search.	4	Member 4
6	API Testing & Conclusion	Demonstrate API testing using Postman/ThunderClient, summarize the project, and explain future enhancements.	4	Member 4

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project, objectives, and problems addressed by the system.
2	Solution Overview	Explain the proposed solution, architecture, technologies, and major modules.
3	Live Feature Demonstration	Demonstrate authentication, FAQ CRUD, database operations, AI FAQ generation, search, and API testing.
4	Q&A Session	Answer questions from the mentor/evaluator and clarify the project's technical implementation.
